

Stroke Data

2022

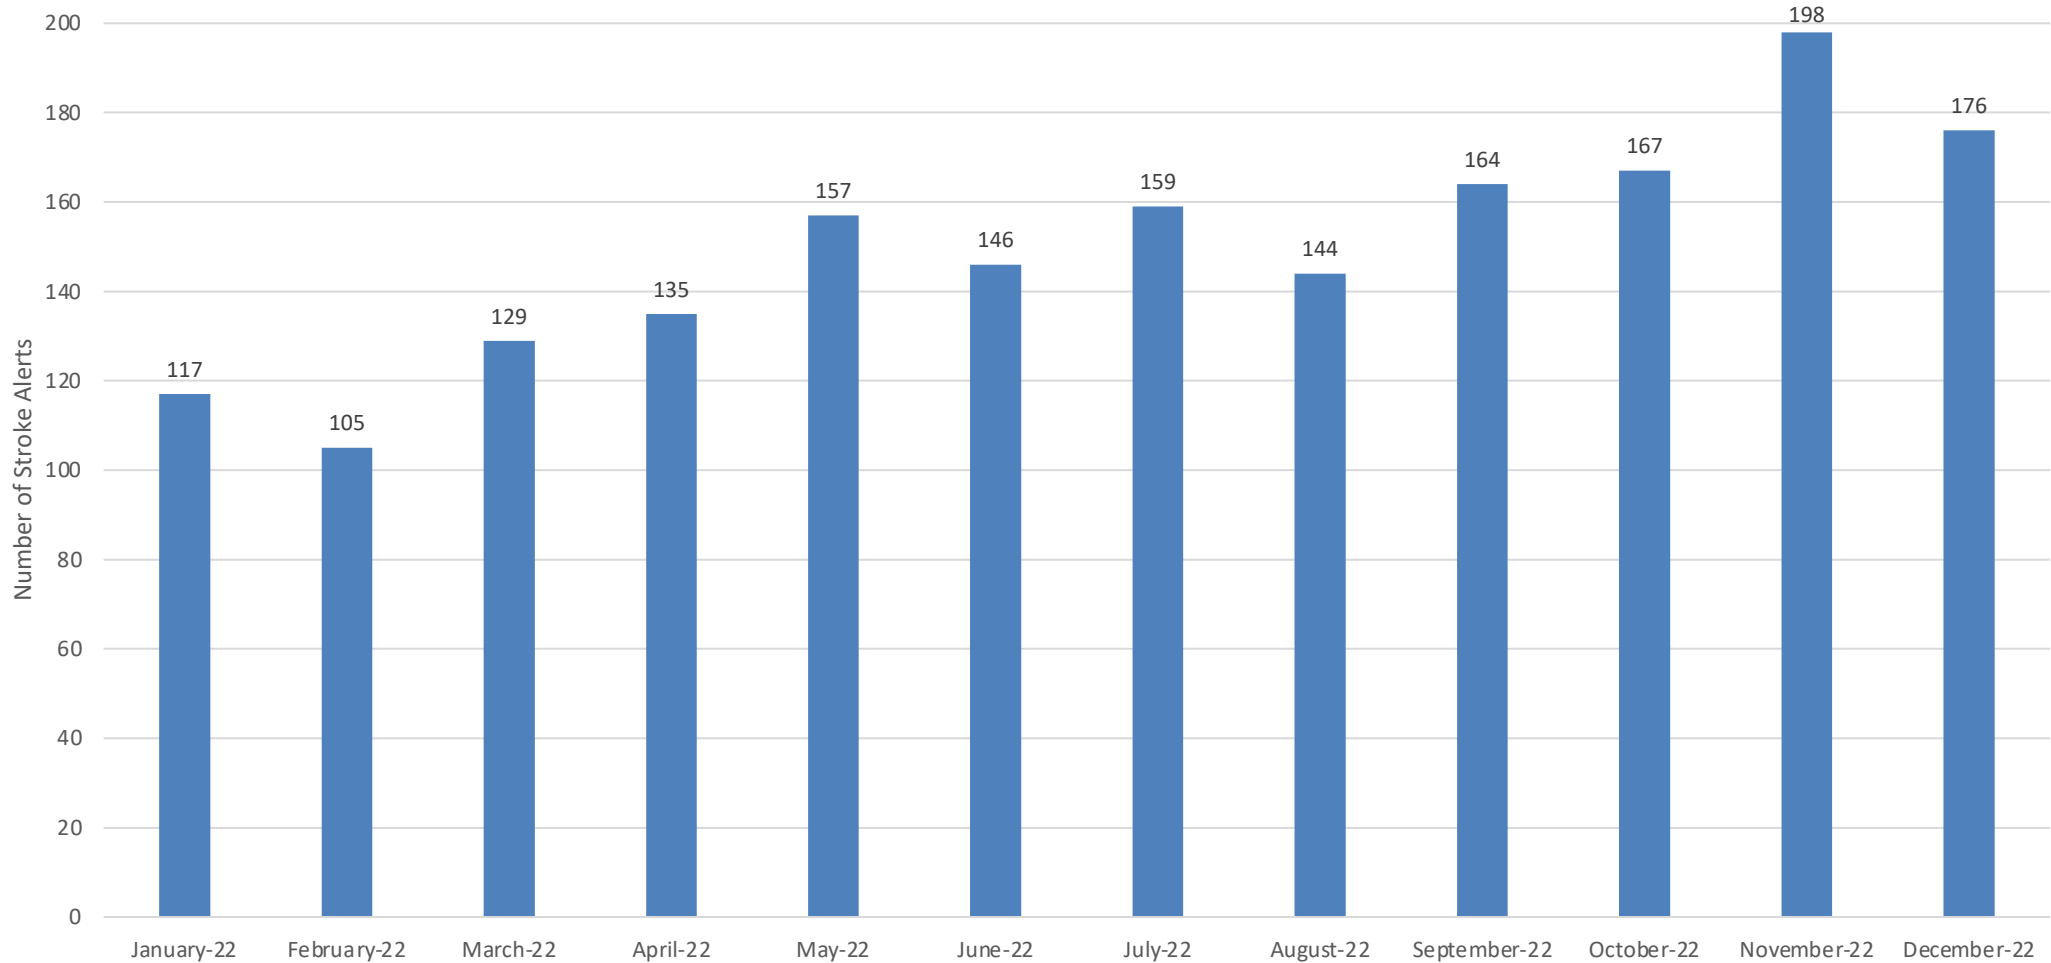

**TALLAHASSEE
MEMORIAL**
HEALTHCARE

**Tallahassee Memorial
HealthCare (TMH) is the
region's only Comprehensive
Stroke Center –
Meaning it's the highest
level of care for stroke
patients.**

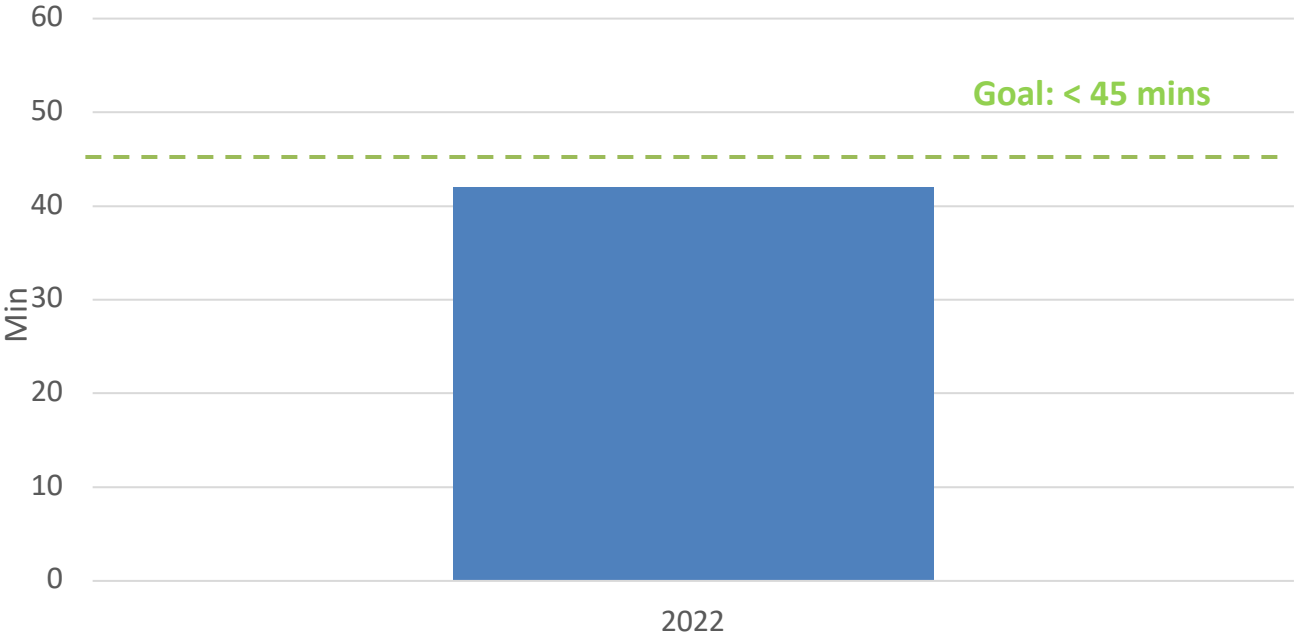

Stroke Alerts @ TMH

Stroke alerts are called when patients are showing signs and symptoms of a stroke. They can be called by EMS or at the hospital. If you think you or someone you know is experiencing a stroke, call 9-1-1!

Door-To-Needle Time Median

- **Goal: Less than or equal to 45 minutes**
- All Comprehensive Stroke Centers follow very strict metrics – these metrics build on each other to ensure that every stroke patient receives the best, evidenced-based care. One of the metrics is to provide tPA, clot busting medicine, to eligible patients within 45 minutes of arrival.

Door-To-Groin Time Median

- **Goal: Less than or equal to 90 minutes**
- All Comprehensive Stroke Centers follow very strict metrics – these metrics build on each other to ensure that every stroke patient receives the best, evidenced-based care. One of the metrics is to begin a mechanical thrombectomy, a clot retrieving procedure to open the vessel, for eligible stroke patients within 90 minutes of arrival.
