AWARDS & ACCREDITATIONS

NEUROSCIENCE

The Panhandle's most advanced neurosurgery program, including stroke and aneurysm treatments without opening the skull. The region's only Neurological Intensive Care Unit.

WOMEN & CHILDREN'S HEALTH

The only center in the region to be a designated ACR Breast Center for Excellence and accredited by the National Accreditation Program for Breast Centers. The region's only Pediatric and Level III Neonatal Intensive Care Units.

TRAUMA CENTER

The only Level II Trauma Center in the region. Accredited Stroke Center and Chest Pain Center with the highest designation available for heart attack care.

CANCER CENTER

The most powerful cancer program in the Big Bend region and accredited since 1951 by the American College of Surgeon's Commission on Cancer — making it the longest continuously accredited community cancer program in the state of Florida.

HEART & VASCULAR CENTER

A leader in the Southeast for advanced heart care, offering the region's only Structural Heart program and Certified Atrial Fibrillation Center.

TMH FOR LIFE

Promoting health beyond our walls by challenging our community to be active, eat healthier, know their numbers and find their happy through free events, screenings, programs, classes and educational opportunities.

STROKE CENTER

The region's first Certified Stroke Center and only state designated Brain & Spinal Cord Injury Center.

CONSUMER CHOICE AWARD

Winner of the National Research Corporation's Consumer Choice Award for the 10th year in a row.

SERVICES

Bariatric Center

Provides both surgical and non-surgical treatment options for overweight or obese patients, including weight-loss surgery, nutrition counseling, meal replacement plans and behavioral counseling.

Behavioral Health Center

Offers mental health services including chemical dependency, mood disorders, anxiety disorders and more in inpatient and outpatient settings through a collaborative team of psychiatrists, psychologists, nurses, social workers and other healthcare professionals.

Cancer Center

In a soothing environment, the all-new Cancer Center offers outpatient services for patients undergoing cancer and blood disorder treatments. Radiation therapy, chemotherapy and hormone therapy are available to patients under the leadership of our team of physicians, nurses, navigators, social workers, technicians, dietitians and more.

Children's Center

Home to the only Pediatric ICU, Child Life Specialist and the most experienced pediatric staff in the region. The center is committed to reducing children's anxiety with distraction devices (iPads, TVs, and interactive games), reduced needle pain (Buzzy, numbing cream and freeze spray), and treatment tools specific to children (vein finder, treatment room and playroom).

Chronic Pain Management

Services consist of outpatient medical management of chronic pain and addiction and minor interventional procedures. These procedures include: trigger point injections, peripheral nerve blocks, joint injections and uncomplicated epidural or caudal injections.

Clinical Genetics Center

Focuses on the use of genetics to prevent, diagnose and treat a variety of illnesses, including heart disease and cancer. Through the expert knowledge of a geneticist and clinical genetics counselor, the center is the only center of its kind in the Big Bend region.

Diabetes Center

Focuses on providing education, individual counseling and support for both adults and children with diabetes. Our nurses and diabetes educators teach patients about blood sugar testing, healthy food choices and insulin therapy, as well as lead support groups.

Emergency & Trauma Services

From the region's only trauma center, to an urgent care facility for minor injuries and illnesses, and a new full-service, freestanding emergency center, nowhere else in the region will you find a more comprehensive emergency and urgent care system to meet your needs.

Family Medicine Residency Program

Providing quality primary family care for more than 40 years, the program also offers specialized care ranging from obstetrics and pediatrics to health maintenance and treatment of chronic diseases. The program also provides inpatient services through Tallahassee Memorial Hospital.

Heart & Vascular Center

Home to all board-certified cardiologists and a vast array of specialties, we offer the most state-of-the-art facilities including a new hybrid diagnostic and interventional suite for both vascular and cardiac catheterization procedures, one neurovascular lab, two electrophysiology labs, two cardiovascular labs and a pre- and post-procedural unit. Specialty services include a Structural Heart Program, A-fib clinic, hypertension clinic, wound healing center, and cardiopulmonary rehabilitation program.

Home Healthcare

Our highly trained medical staff provides patients with the ability to continue care in their own homes.

Internal Medicine Residency Program

Through a partnership with the FSU College of Medicine, TMH is home to the Internal Medicine Residency Program. This program provides primary care to adults in the Big Bend and specializes in caring for complex medical conditions.

Lipid Center

Provides consultation to medical professionals for their patients with complex lipid disorders. Also provides education, testing, medication management and nutrition counseling for patients with lipid disorders on a referral basis.

NeuroSurgery Center & Neurosurgery

Tallahassee Memorial boasts the region's most advanced neurological care, including stroke and aneurysm treatments without opening the skull. Treating patients from a tri-state area, TMH provides patients with the area's only Neurological Intensive Care Unit, the first Joint Commission certified Stroke Center and the only state designated Brain & Spinal Cord Injury Center. The NeuroScience Center offers a broad range of neurological services including a Parkinson's Center, Concussion Clinic, Memory Disorder Clinic and a Sleep Center that provides comprehensive services for the diagnosis and treatment of sleep disorders.

Orthopedic Center

Our Orthopedic Center works with orthopedic surgeons to provide high-quality orthopedic care including sports medicine, minimally invasive surgeries, trauma care spine treatments and a full range of joint replacement options. It is also registered as an American Orthopedic Association Own the Bone site.

Rehabilitation Center

Our 53-bed, sub-acute skilled nursing facility offers a full range of medical and rehabilitation services, including comprehensive physical, occupational, speech and respiratory therapies. Specialty services include outpatient stroke rehabilitation and lymphedema therapy. We also have five outpatient rehabilitation centers throughout the Big Bend and offer pediatric rehabilitation at our Tallahassee facility.

Surgical Services

From precise neurosurgery and heart valve replacement through minor incisions in the leg, to robotic surgery through the belly button and custom joint replacement procedures, revolutionary technology and techniques provide patients with the best possible care, including the most advanced robotic surgery system in the Big Bend.

TMH Physician Partners

TMH Physician Partners is a community based, multi-specialty group affiliating TMH with over 23 practices and over 130 physicians.

Women's Pavilion

Leading maternity services in the region, Tallahassee Memorial delivers more than 75 percent of babies born in our area. With 19 labor and delivery rooms, the facility is dedicated to providing patient-centered care to new babies and their families. As the only facility designated as a Level III Neonatal Intensive Care Unit, we're equipped to handle high-risk moms and premature or critically ill babies.

A Woman's Place

Community education, counseling and retail offerings for women are located in this off-site facility. A Woman's Place houses Mommy Market, a breast health education and counseling center, a breast prosthesis boutique, A "Women Like Us" health network and many different classes and support groups.
