ABOUT US

The Tallahassee Memorial Animal Therapy Program is a highly-visible and valuable community asset that serves the spectrum of Leon County’s and the Big Bend’s populations. The program’s certified and trained animal therapy volunteer teams visit many places including hospitals, hospices and centers for long-term care, assisted living, rehabilitation, schools, and even courthouses.

Although dogs comprise the greater number of therapy animals, the program also includes cats, parrots, miniature horses, rabbits and a goat.

Want to Make a Charitable Contribution?
There are a variety of ways, both outright and deferred, to make charitable contributions to support the Tallahassee Memorial Animal Therapy Program. For more information, visit TMH.ORG/Foundation.

Want to Volunteer?
The Tallahassee Memorial Animal Therapy Program relies on outstanding volunteers – both animal and human. To learn how you and your animal can become volunteers, please visit TMH.ORG/AnimalTherapy.
