■ Refuses to Answer

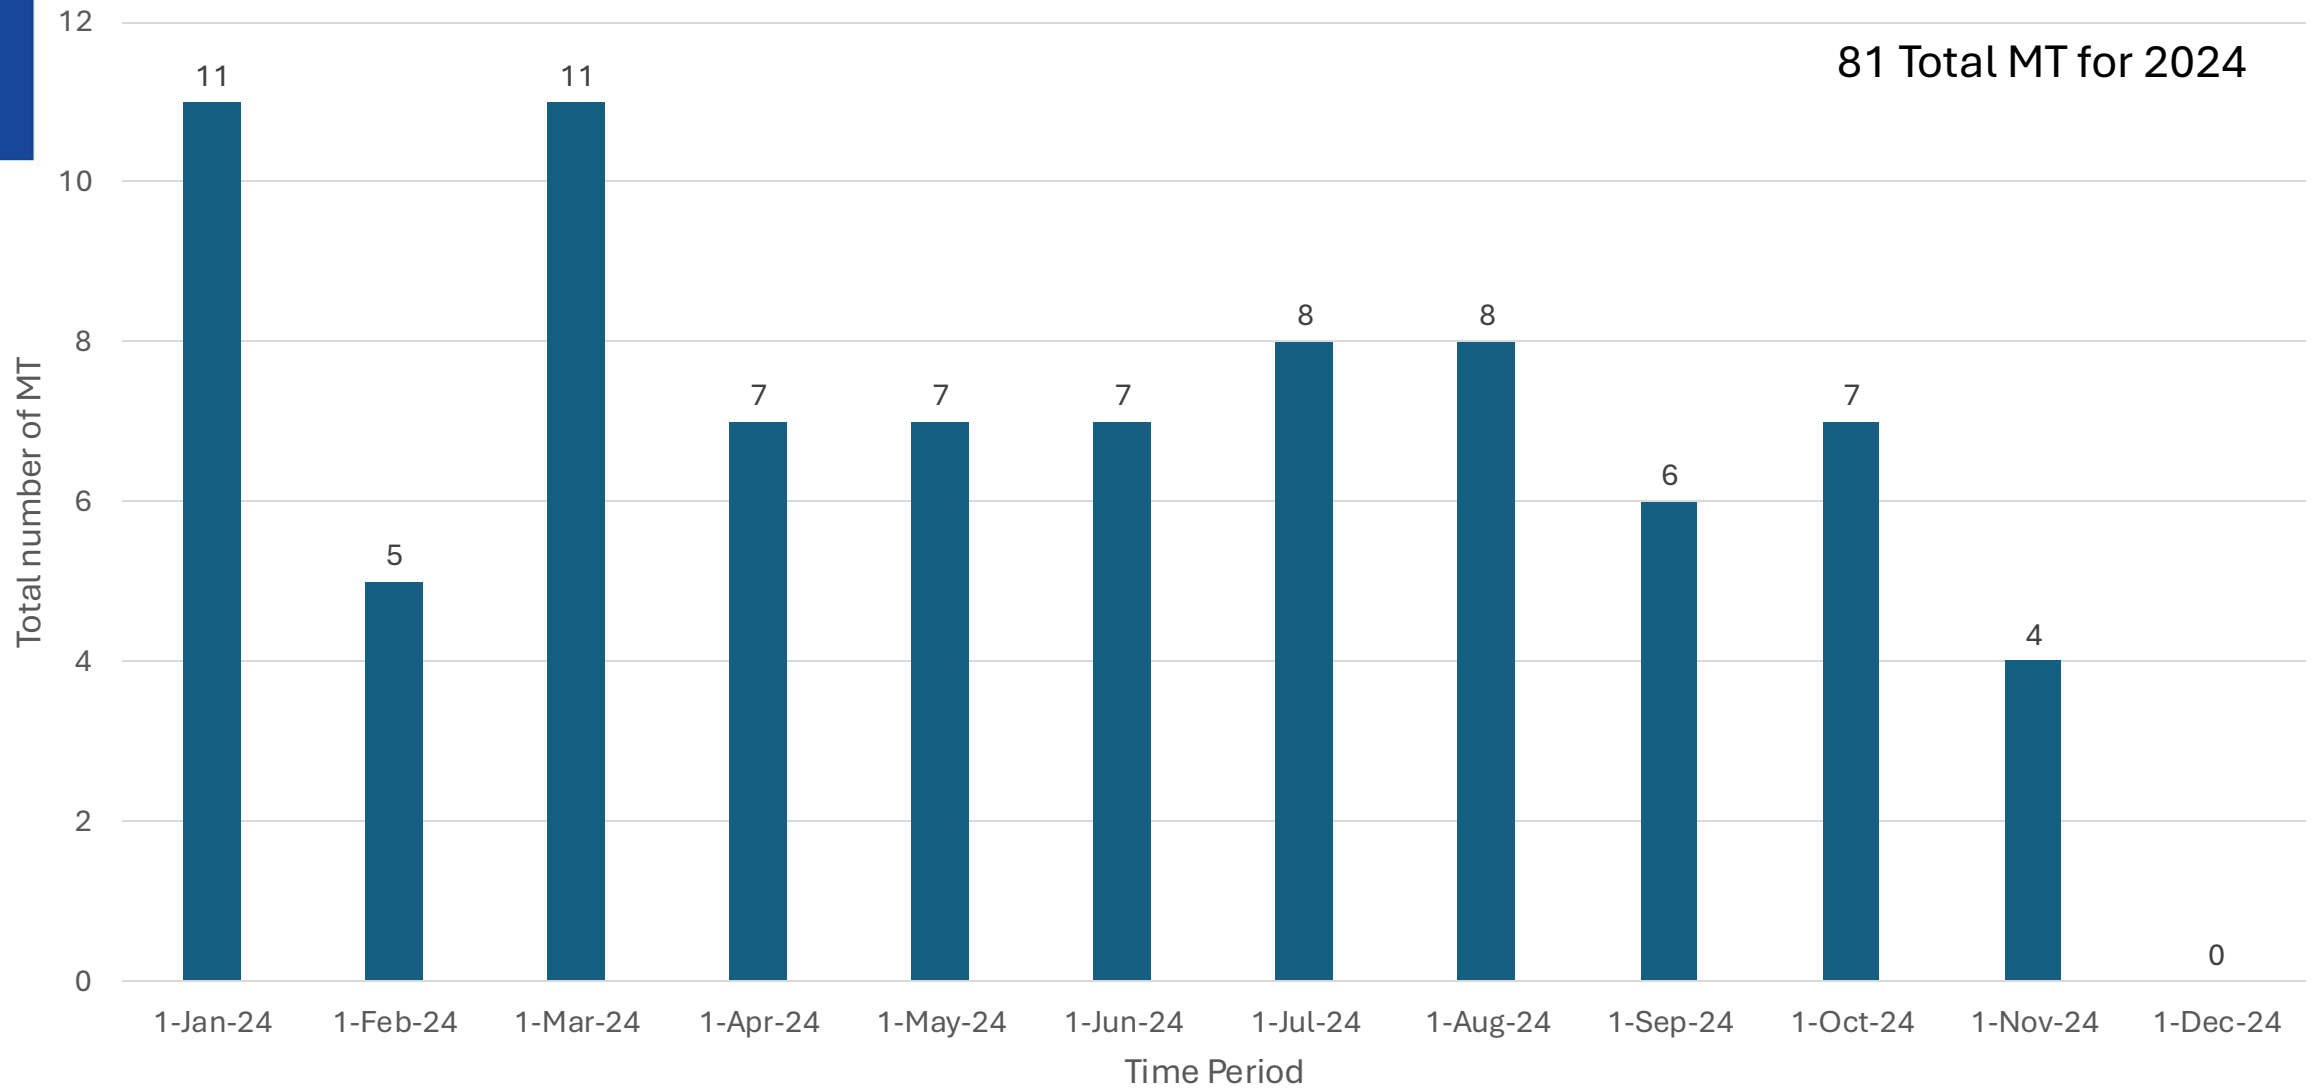

# tPA Administration Rates

70 total qualifying alteplase  
(tPA) administrations for 2024

# Mechanical Thrombectomy (MT) Patients

# Door-To-Needle Time Median

- Goal: Less than or equal to 45 minutes
- All Stroke Centers follow very strict metrics – these metrics build on each other to ensure that every stroke patient receives the best, evidenced-based care. One of the metrics is to provide thrombolytic therapy, clot busting medicine, to eligible patients within 45 minutes of arrival.
